

geometric optics refraction lens optics phet - how does a lens form an image see how light rays are refracted by a lens watch how the image changes when you adjust the focal length of the lens move, **bending light simulation phet** - explore bending of light between two media with different indices of refraction see how changing from air to water to glass changes the bending angle, **vectors properties and operations complete toolkit** - vectors properties and operations complete toolkit objectives to understand that a vector is a quantity that has a magnitude and direction and
